

The Full Moon in April (7th) is called the

## PINK MOON

The name is in honor of one of the first spring flowers called wild ground phlox.  
Can you guess what color the flower is?

The April Moon is also called  
the Sprouting Grass Moon,  
the Egg Moon,  
and the Fish Moon.

# TUESDAY CHALLENGE:

- Illustrate a picture which includes an April moon inspired by any of the names above.
- Put more in the picture than a moon...make your picture tell a story!

The April Moon  
will be the  
brightest of the  
year in 2020!

How big and how bright?

Supermoons are about 7% bigger and about 15% brighter than a typical full Moon.

Do you think you will be able to see this with your eyes?

You will need:

Paper  
Crayons, markers, or colored  
pencils

ILLUSTRATOR HINT:

Make thumbnail sketches of  
your ideas first.

Use a pencil to make a whisper  
sketch on your large paper

- On Friday, tape your pictures outside on your porch to make an art show and invite me to come see your show! (from a distance!)
- OR send a photo of your picture to me at [evon@evonzerbetz.com](mailto:evon@evonzerbetz.com)
- BONUS: Write a story about your picture for me.

Stay tuned for your next challenge  [www.evonzerbetz.com](http://www.evonzerbetz.com)
