

Little Red Snapperhood Cutouts

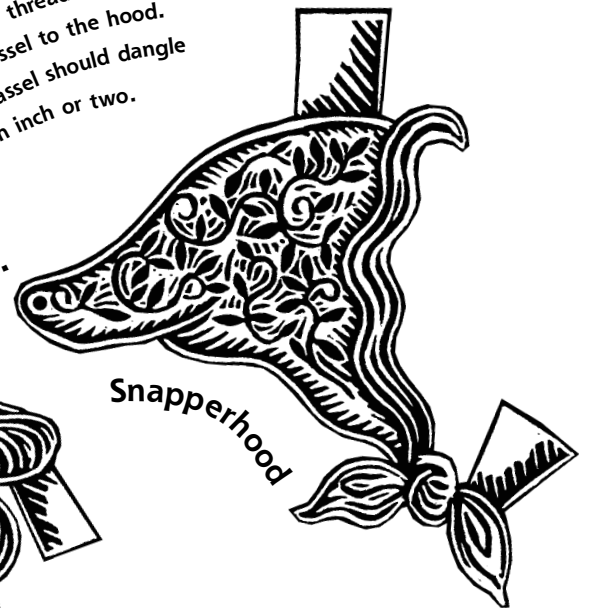

Snapperhood loves to dress up and here's her favorite hat collection. Use your imagination to color them, and ask a grown-up to help you with cutting and making holes.

China Cap

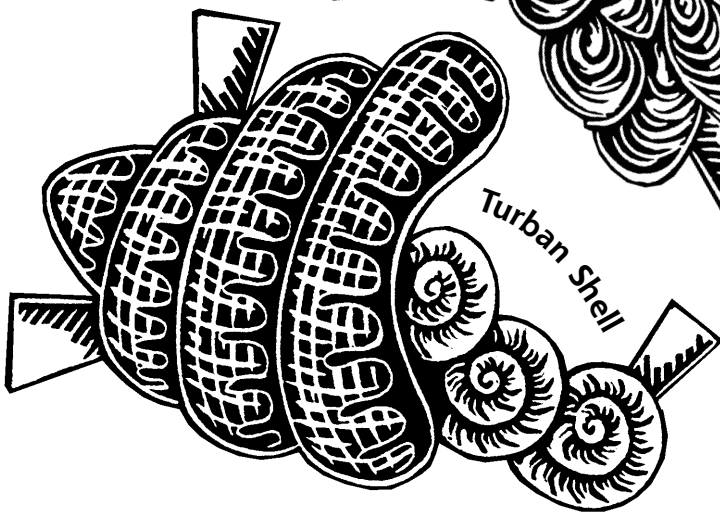

Pierce a tiny hole at the tip of the hood and top of the squid using a needle. Two dots show you where to pierce. Use a bit of string or thread to tie your squid tassel to the hood. The tassel should dangle an inch or two.
